Dear Shareholders,

As a Chairman of the Management Board of KORADO-Bulgaria AD it is a pleasure for me to announce that 2020 was prosperous for the Company. KORADO-BULGARIA ended 2020 with net profit amounting to BGN 4,591 thousand, despite difficult economic conditions and constantly rising prices of basic materials used in production. These results show sustainability in the development of the Company and a growing trend for continuous improvement.

The Company's management continues monitoring of the impact and take adequate steps and measures to mitigate the effects of the ongoing COVID-19 pandemic (Coronavirus), as this has limited impact on the Company's sales and supplies.

We have invested only in those projects that save costs, improve productivity, improve the lives of our employees or prevent technological downtime. All other investments were withheld, as there was a higher priority - to provide dividends for our investors.

We optimized our costs to the maximum and looked for favourable prices for the raw materials for our production.

I would like to thank all the leadership of the Company, all employees and workers, who, with their energy and high professionalism, have made our company prosperous and we can say that the quality of the products we offer, investing in new technologies and quality frames are prerequisites that KORADO-Bulgaria AD become one of the top 10 manufacturers of radiators in the world, to meet all future challenges and respond to our shareholders' expectations by fulfilling another successful year.

ENG. JIRI REZNICEK
Chairman of MB and Executive Director of
